

At Kaliber Footwear,
we believe that an industry is only as good as its
well-protected labour force.
This is why leading companies throughout South Africa
and across the African continent start out on the right
foot by equipping their workers with
Kaliber Safety Footwear.

Our excellent quality, safety boots and shoes go a step
further. In addition to safeguarding feet from the
potentially serious consequences of blows, cuts and
punctures, features such as steel toe-caps and innovative
steel midsoles, in conjunction with specially engineered
slip-resistant soles are all designed to avoid slips,
falls and serious injuries.

A combination of the highest quality materials and expert
craftsmanship delivers extended comfort to outlast the
toughest conditions.

We stand firm on our commitment to offer durable,
reliable, safety footwear at a reasonable price, so workers
can take increased productivity in their stride.

We are proud to offer the best quality specs per Rand.
Our highly regarded reputation is our
customer's guarantee that footwear is manufactured to
the highest quality criteria. Kaliber's range of footwear
conforms to the National Regulator for compulsory
specifications, and is fully NRCS approved.
Our boots and shoes are all manufactured in compliance
with international ISO 20345:2011 standards.

Although our product is imported, Kaliber's service can't
be beaten. We hold stock locally in our warehouse, which
means that your order will be delivered on time.
Typical turnaround time in major cities is under 72 hours.

*For unrivalled protection, never set foot in anything less, insist
on Kaliber Safety Footwear.*
