

**TITAN**  
WORKWEAR

Titan Workwear is a high quality, competitive workwear range designed to fuse fashion and Workwear. It was designed with the intention of creating a sense of pride in the workplace, and a want to work culture, keeping in mind the importance of safety in the workplace. We believe that our employees are our company, so why not translate that belief into the products we manufacture. By creating a want to work culture within your work environment, we hope to increase your employees comfort and productivity. This is what drives the brand, happy employees, happy employer.

### Made in South Africa

We at Titan consider our employees to be our most valuable asset, without them we wouldn't have a company. In a country where unemployment is rife, We employ over 260 qualified community members and we are proud of that. Titan garments are manufactured completely in SA in our owner managed factory in Hammarsdale.

### Track and Trace Technology

Based on our SABS approved range of clothing, we have developed a method of dating the garments you order. Enabling your company to track and trace issue dates of each employee, as well as enabling you to annually budget correctly the issuing of overalls to your employees.

### Vislon Zip

Fusing fashion and workwear with added benefit of high quality finishes such as our YKK Vislon zip on all Titan garments, creating a want to wear attitude within the workplace

### Dura-cool fabric

For ultra comfort within a hot working environment like kitchens and food processing plants, Our chefwear is made of specially designed lightweight strong polycotton material for an equal balance of durability and comfort.

### Flexi-fit

Your employees flexibility and comfort within the workplace should be of utmost importance in building a better, more productive working environment.

Careful consideration in the cut, make-up and styling has gone into the Titan design. Creating one of the most flexible, hard-working and durable overall in the market.

Sizing of suits available is from 30 - 60

### Dura-Tex235

The innovative design, durability and strength defines the fabrics used in the Titan range

Our Dura-Tex235 fabric is a 235gsm polycotton fabric, made to the highest quality, and if correctly washed can withstand 140 washes and still withhold its safe and stylish appearance.

Please refer to wash care instructions on the label.

### Dura-stretch fabric

With the introduction of more advanced workwear and clothing, our newest addition is our super strong Polycotton Stretch fabric. For the ultimate in comfort in the work place, staff now have the option of a stretch fabric.

HACCP or the HAZARD ANALYSIS CRITICAL CONTROL POINT is a process control system used by food processing companies to identify where hazards may occur in the food production process & putting actions into place to prevent hazards from occurring again.

All our garments are made to conform with the various HACCP compliancy requirements in the food, pharmaceutical & catering industries.

# Homegrown RANGE

## **INTRODUCING OUR NEWEST RANGE OF HOMEGROWN CLOTHING**

Since 1995, our high quality workwear has found a stable and competitive advantage offering quality, locally produced garments at an affordable price.

As we grow and expand our offering, it's time to stay true to who we are and offer locally produced, responsibly sourced, comfortable, long lasting bushwear and workwear clothing.

Our Titan Homegrown label is exactly that, offering a new quality and style to the market..... All locally produced, our garments are as original as the South African people that wear them.
