

A full-page advertisement featuring two police officers in tactical gear. The officer on the left is seen from the back, wearing a white short-sleeved shirt, black tactical pants, and a black tactical vest. The officer on the right is seen from the side, wearing a white short-sleeved shirt, black tactical pants, and black tactical boots. He is holding a black rifle. They are standing on a dirt path next to a brick wall. The text "BATA INDUSTRIALS SECURITY COLLECTION 2025" is overlaid on the left side of the image. The Bata logo is at the bottom center, and the text "BATA INDUSTRIALS THE SAFETY SHOE" is at the bottom.

THE SOLE OF BATA

Founded in 1894, The Bata Shoe Organisation is one of the world's leading manufacturers and retailers of quality footwear. With over 30,000 employees, 24 production facilities, 5,000 international retail stores, and a presence in over 70 countries, the company was first registered in the town of Zlin, Czechoslovakia.

From humble beginnings, the small family business expanded rapidly under the vision and guidance of

founder Thomas Bata. Thomas, a ninth-generation shoemaker, was determined to become a manufacturer who could provide customers with value for their money. Bata became an international business in the first half of the 20th century, and by the second half of the century, it emerged as a progressive and market-leading pioneer of the modern footwear industry, now an iconic brand recognised all around the world.

BATA SOUTH AFRICA

Bata established its South African presence in 1931, in the heart of Loskop, KwaZulu-Natal. The Loskop factory is the proud manufacturer of our Toughhees and B-First school shoes, alongside a diverse range of safety shoes, producing over 5 million pairs annually.

Bata attributes its production success to the dedicated South African workforce. By locally producing many of our shoes, we have contributed to the growth of both the local and national economies, offering our customers better value for their money.

LOSKOP, KWAZULU-NATAL, SOUTH AFRICA

BUILDING LOCAL

With a firm belief in the power of community, Bata turned to South Africans to drive growth by investing in the Loskop community. By concentrating on localising our factory operations, Bata boosted the economy and created important job opportunities for many in Loskop.

Community is at the heart of our mission. Through various initiatives, we actively uplift the people of Loskop, and by doing so, Bata not only continues to make quality shoes for local and international markets but also contributes significantly to the growth and prosperity of the local community.

LET'S TALK SECURITY

Bata Industrials was established in the 1950s to meet the specific market demand for footwear tailored to professionals working in dangerous environments. As a result, Bata Industrials aims to safeguard the workforce by offering reliable

safety footwear solutions. These solutions not only protect feet but also elevate safety standards, boost workplace confidence, and foster a culture of safety excellence across industries globally.
